

EARLY CHILDHOOD EDUCATION, B.A.

Teach pre-kindergarten through 3rd grade.
Make a difference in the lives of young children.

THE PROGRAM

You will participate in over 700 hours of field experiences and internships in PreK-3rd grade classrooms working alongside award-winning professors and experienced classroom teachers. You will learn innovative early childhood teaching methods for science, mathematics, social studies, and literacy. You will study the process of building rich and supportive family-school relationships and learn effective practices for teaching diverse groups of students.

Graduates are highly sought after for their abilities to work on behalf of young children and their families within and beyond South Carolina. State reciprocity and our national accreditation make it easy to become certified in most states. Our graduates are also well-prepared to enroll in master's degree programs during their first years of teaching.

PROGRAM ACCREDITATION

This program has been accredited by:

- Council for the Accreditation of Educator Preparation (CAEP)
- National Association for the Education of Young Children (NAEYC)

ADDED EXPERIENCES

You may elect to participate in one or both of our exciting specializations for early childhood majors.

- **Urban Education** - Learn more about effective teaching within an urban school environment through this immersive focus on schools with students from diverse cultural, racial, and linguistic backgrounds.
- **Early Childhood Special Education** - If you are considering working with 3-6 year old children with special needs or would simply like to strengthen your skills as a teacher, this specialization will be a valuable asset and leads to the SC Early Childhood Special Education add-on certification.
