

# ELEMENTARY EDUCATION, B.A.

Teach 2nd through 6th grade.

Make a difference. Become an Elementary Teacher.

## THE PROGRAM

You will gain the professional knowledge and skills necessary to be a highly effective teacher in grades 2-6. Your studies will focus on engaging children in inquiry-based lessons, developing elementary curriculum, and using student data to inform instruction. You will have experiences in authentic elementary classroom settings, where you will work side-by-side with award-winning professors and experienced classroom teachers. You will learn innovative teaching methods through these guided experiences in diverse elementary school settings.

State reciprocity and our national accreditation make it easy to become certified in most states. Our graduates are also well-prepared to enroll in master's degree programs during their first years of teaching.

## EMBEDDED COURSES

In addition to your many field experiences and internships, you will benefit from embedded methods courses that meet in local elementary schools, are co-led by university-based education faculty and school-based teachers. These embedded courses are a focal point for the program and provide opportunities for you to immediately put into practice in a real elementary classroom setting the instructional strategies you learn.

## PROGRAM ACCREDITATION

This program has been accredited by:

- Council for the Accreditation of Educator Preparation (CAEP)
- Association for Childhood Education International (ACEI)

2023-2024

# TYPICAL PROGRAM FOR ELEMENTARY EDUCATION, B.A.

## FRESHMAN

### Fall

Reading and Composition  
Analytical Reasoning and Problem Solving  
Aesthetics and Interpretive Understanding  
United States History  
Elective (Typically UNIV 101)

### Spring

Issues and Trends in Teaching and Learning\*  
Rhetoric and Composition  
Analytical Reasoning and Problem Solving  
American National Government  
Biology

## SOPHOMORE

### Fall

Learners and the Diversity of Learning  
Schools in Communities  
Mathematics Knowledge for Teaching I: PK-8  
Geography  
Earth Science

### Spring

Culturally Sustaining Pedagogy for the Elementary Classroom\*  
Mathematics Knowledge for Teaching II: PK-8  
Physical Science  
Economics  
Additional required Carolina Core Course

### South Carolina Teacher Loan
